The renewed cryptographic key is used to encrypt a second cryptographic key, which is used to encrypt an encryption algorithm. The encrypted second key and the encrypted algorithm are transmitted to the terminal, where the second key is decrypted using the renewed key and the encrypted algorithm is decrypted using the second key.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
